NORTH TONAWANDA, N. Y., May 21.—Bandits today stopped a westbound fast freight on the New York Central railroad on the Sanborn branch near here, held the fireman and engineer at bay with revolvers, robbed cars of merchandise valued at \$50,000, and escaped. About twenty-six bandits took part in the holdup and six motor trucks were used to haul away the loot.

TWO NEW CONFESSIONS IN CHICAGO BOMBING PLOTS

CHICAGO, May 21.—Two new confessions from men accused in connection with the bombing and slugging plots in Chicago's labor troubles, were announced by police today. James Sweeney, alleged leader of the gang, which bombed scores of buildings here, and Andrew Bartlett, accused of being the chief bomber, confessed, Chief of Police Charles Fitzmorris announced. The stories told by Sweeney and Bartlett were practically identical with the confession of Andrew Kerr, member of the gang who first "squealed."

BEARS MAKE ASSAULT ON RAILS AND SOME OIL STOCKS

NEW YORK, May 21.—Bears hammered stocks right from the opening of the market today, directing their attack particularly on the rails and some of the oils. Chesapeake & Ohio sold down to 56 a new low on the decline, shortly after the opening. This is a reaction of 8 points in two days. Union Pacific was off 1/2 at 119 1/2 and Reading 5-8 at 70 3-8. Asphalt opened from 68 1/4 to 68, off 3/8 to 5-8. Shortly after the opening Pan-American sold down to 64 1/2, a new low for the year. Studebaker, opening off 1 at 76, was down 17 1/2 points from the year's high.

RAILROADS ARE SEEKING TO COLLECT \$1,250,000,000

WASHINGTON, May 21.—Railroads today attempted to collect \$1,250,000,000 from the United States railroad administration. In submitting the claims the road managers charged in effect, that the government during federal control of the roads failed to get its money's worth from labor employed at high wages. Director General Davis of the railroad administration, who is adjusting the claims, denies the charge of the railroad managers, declaring that the government owes them not more than 40 per cent of the amount claimed, \$500,000,000. Some roads already have settled for 40 per cent of their claims. The basis for the claims is the promise made by the White House when the roads were taken over that they would be returned in the same physical condition in which they were received.

Quimet and Guilford repeated the victory in the second match by beating Cyril Tolley, the British champion, and Holderness, three up and two to go. The third match also went to the Americans when Hunter and Platt defeated the Montmorency and Wethered one up. The last match, making a clean sweep, was taken by the Americans when Wright and Fownes beat Aylmer and Armour four up and two to go.

HOLD SERVICE FOR NEW CHURCH HOME

PENTECOSTAL ASSEMBLY HAS
HOUSE OF WORSHIP HERE,
RECENTLY DEDICATED

The members of the newly organized Glendale Pentecostal Assembly, who heretofore have been without a place of worship, met last Wednesday night to dedicate their new church building at 699 East Colorado boulevard. More than a hundred followers witnessed the ceremony, those present including members from Los Angeles, Eagle Rock, Burbank and Lankershim.

The services consisted of various speeches by the members, a short musical program and an inspiring dedicatory address by Rev. Warren Fisher of Los Angeles. Rev. Fisher is pastor of the Los Angeles church and has taken considerable interest in the erection of the new tabernacle. He is a former resident of this city.

The edifice, which is of wooden structure, is about forty feet long and thirty feet wide, and is uniquely and artistically decorated both on the interior and exterior. A lawn, flowers and shrubs have been planted.

The new congregation will hold, beginning this week, regular services every Wednesday and Sunday nights, and also Sunday school in their new temple of worship.

A minister has not yet been selected, but probably will be chosen in the near future. The trustees of the new Assembly are H. A. Hays, Benjamin Platt and Joseph Prendeville.

BANQUET IS GIVEN FOR BROTHERHOOD

REV. LUTHER G. REYNOLDS IS
SPEAKER, HIS TOPIC BEING
'TOTING YOUR BURDEN'

Notwithstanding the stormy evening, a company of between forty and fifty men were present at the Brotherhood banquet at the First Methodist Episcopal church last night.

Following the banquet and social hour, President Findley called on the pastor, Dr. C. M. Crist for a few remarks and the introduction of the speaker of the evening, Rev. Luther G. Reynolds, secretary of the Methodist Missions of the city of Los Angeles. His topic was "Toting Your Burden."

He introduced this subject by saying that he spent some time in Louisiana and Mississippi and there he saw so many colored boys, carrying burdens of all sizes on their heads, easily and cheerfully, whistling as they went their way. They expressed it as "toting their burden."

"Since then," said he, "I have been in all walks of life and have discovered that there is the school boy's burden, the poor man's burden, the business man's burden, the rancher's burden,—and yes, even in Wall Street, they have burdens to bear. And another thing I have found out is that our capacity increases, as we bear our burdens. Let me call to your attention some undesirable burden bearers. The indolent, those that start out well, but falter,—the lime light fellows.

He then concluded by paying a tribute to the common, every-day burden bearers, who are in shadows as well as in the light. The soldier boys who make possible the generals. The always-at-it fellow is the one who counts in the battle of life.

A rising vote of thanks was given the speaker for his inspiring address.

The ground floor will contain a suite of offices for Dr. Harrower and his editorial assistants. The library will be 15x32 feet and in addition to this two other rooms will be devoted to the translating department, which is under the direction of Henry Brockway, and there will also be a clipping and filing department.

The general manager, James Howarth, will have his office next to Dr. Harrower's and his secretaries will have a room between his office and that of C. L. Cyphers, the assistant manager. A consultation room, with dressing rooms and facilities, makes up the east wing of the ground floor.

W. H. Block to Return

The west wing is to be divided from the east wing by a large lobby and central stairway, under which an extensive vault is planned for, and will be devoted largely to the correspondence and mailing department. William H. Block, who is now in charge of the recently-opened Kansas City office, will return shortly and continue his old work as chief of the correspondence department. Next to his office a long room clear across the building will be occupied (Continued on Page 4)

RESOLUTION

RESOLUTION OF THE BOARD OF
TRUSTEES OF THE CITY OF
GLENDALE RECALLING THE
BOND ELECTION SET FOR MAY
24, 1921.

Whereas: A school bond election
to be held on May 24, 1921, has hereto-
fore been called by this Board by a
resolution passed April 23, 1921.

And Whereas: The question has
arisen as to whether or not the res-
idents of the "Grand View" district
are entitled to vote at said election
and the validity of the election is
dependent upon the correct answer to
this question.

And Whereas: The Supreme Court
of the State of California in a recent
decision has expressly declined to
pass upon the above question, thereby
casting a grave doubt upon the val-
idity of any bonds voted or issued at
the present time.

And Whereas: The going into ef-
fect of the recently adopted Charter
of the City of Glendale will remove
all doubt on the question above set
forth by "making the "Grand View"
district an integral part of the Glen-
dale City School District;

Now Therefore, Be It Resolved:
That the resolution passed by this
Board on April 23, 1921, calling the
above mentioned bond election be
and it hereby is rescinded, and said
election will therefore not be held
until a later date.

City Clerk of the

STATE OF CALIFORNIA, COUNTY

that the foregoing Ordinance was

DR. H. R. HARROWER
GETS PERMIT FOR
BUSINESS BLOCK

NEW LABORATORY WILL COST
\$47,000; STRUCTURE TO BE
OF BRICK, TWO STORIES

(Continued from Page 1.)

by the numerous typists and stenog-
raphers—it is stated that the Har-
rower Laboratory has fifteen or
more typewriters in use—and be-
yond this a large room for the ad-
dressing and mailing and addresso-
graph department, the latter con-
taining an especially-built brick
vault to accommodate over 125,000
metal stencils that have been made
in the last few months to reduce the
work and expense of this department
to a minimum. Finally in the south-
west corner, opening onto the alley,
and also toward the present labora-
tory building, will be the shipping
department.

The second floor will be devoted
to a series of large rooms, two of
the biggest of which, 30x41 1/2 feet,
will be used by the book-keeping de-
partment and as a lecture room re-
spectively, the latter fitted up to
accommodate between 300 or 400 per-
sons. This lecture room, it is plan-
ned, will be used most of the time as
recreation room for the numerous
happy employees of this growing or-
ganization. Adjoining this lecture
room will be a rest and dining room
for the women and girls, with con-
venient facilities for such cooking as
may be desired.

Anticipate Greater Growth
Still another room will be fitted
up as a testing laboratory and sev-
eral additional offices are provided
for in the plan in order to accommo-
date the growth and expansion which
is anticipated in the future.

This new building will be quite the
largest building of this type in Glen-
dale and it is hoped that it will be
completed in five or six months since
the need for the additional space re-
quired for the expanding business of
the Harrower Laboratory is very
urgent. The thirteen rooms which
they now occupy above the Glendale
Avenue Branch of the Los Angeles
Trust & Savings bank, and the store
room at 704 East Broadway, are
more than filled with busy workers.

Dr. Harrower in addition to being
somewhat aggressive in nature, also
has an eye for the beautiful and the
building will be set back twenty-five
or more feet from Broadway, per-
mitting of a drive with shrubbery
on the sides and a lawn in front, and
as the reporter visualizes this new
administration building it will be a
very decided improvement to the
east side of the city in which Dr.
Harrower seems to have concentra-
ted all of his interest.

The plans for the building were
prepared by L. M. Hodge of San Fer-
nando, who was the architect of the
recently-dedicated Glendale Sanitar-
ium Hospital. Clarence Erickson,
who has recently built the laboratory
building for Dr. Harrower and his
new residence on East Broadway
which is just nearing completion,
will have charge of the project.

remain with the men.

Agitation for women's rights,
which has placed them in the legis-
lative halls and allowed them to don
the black robes of the judiciary, has
failed thus far to make an impres-
sion in the conduct of ecclesiastical
affairs.

Returns from the plebiscite, taken
among the million and a half mem-
bers of the Presbyterian church, and
reported to the general assembly
here today, showed that movement
to allow women to sit as commission-
ers in the assembly was beaten de-
cisively.

Dr. S. Hall Young, revered Pres-
byterian minister of New York has
given a life time in battling for the
right of women to sit in church coun-
cils, but his campaign has been futile.

Dr. Henry C. Swearingen of St.
Paul, took the chair as moderator
today at the opening of the second
session of the assembly. A keep race
developed between Dr. Hugh Mac-
Cauley of Paterson, N. J., and Dr.
Benjamin Gemmill of Philadelphia
for the post of state clerk, the high-
est executive office in the Presbytery.

Glendale Evening News, May 21, 1921

AUTOMOBILE INDUSTRY IS LEADING ALL OTHERS

There has been, within a recent period, a general increase of employment in the automobile industry, as shown by figures of the various Chambers of Commerce and there has also been a general increase in the number of hours worked by the forces. Shipments have shown gradual increase as made known through National Automobile Chamber of Commerce reports.

Some idea of the volume of business may be obtained from facts gleaned regarding factory outputs. Ford is on production of 4000 cars daily and employing 41,000 workmen at the Highland Park plant; Dodge Brothers 450 cars daily as against normal of 650; Paige, seventy cars daily; Dord, fifty cars daily; Reo, slightly less than 100; Cadillac, ninety-two; Hupp, eighty; Scripps, fifteen; Jordan, 500 to 600 cars for May; Fordson tractors, 200 daily; Marmon, twenty daily; Lafayette, ten to twelve daily; National, eight to ten daily; Cole, twenty daily; H-C-S, eight daily; Briscoe, forty daily; Peerless, twenty-five daily; Saxon, increasing production; Pierce, 280 in April, 300 in May; Grant, forty daily; Franklin, forty daily with an output of 920 in April and 885 orders behind; Overland for May, 215 daily; Haynes, 33 per cent in advance of last year with 16 per cent more workmen than at the same time last year.

March figures for some of the makers have been given by one investigator who found that Dodge turned out nearly 3000, Hupp 1700, Packard 700, Chevrolet 1300, Oakland 1700, Olds 2200, Studebaker 4500, Dord 1700, Buick 6000 to 6200, Paige-Detroit 1800.

The automobile industry is leading the industries of America back to real sound conditions as America knew them before the war.

Arthur M. Garey Is Visitor In Glendale

Arthur M. Garey of El Centro is enjoying a week's visit with his friend, M. B. Towman, representative of the Automobile Club of Southern California in Glendale. While the latter was manager of the Imperial valley branches of the club, he and Garey made many desert trips together last winter and palled around quite a bit. Mr. Garey is a prosperous young rancher.

THEY STEAL MILLION

A nationally organized band of motor thieves, consisting of more than 500 trained thieves and dealers in used cars, was uncovered by the federal authorities in Chicago. Traveling salesmen were found to be the most important department of the business. It was their duty to locate possible buyers for the stolen cars and make reports on likely places for trades. Evidence already obtained shows the band has stolen cars valued at nearly \$1,000,000 in larger cities of the middle west during the last year.

BATTERY EXPENSES STATES PRICE FOR NEED ATTENTION, SAY EXPERTS

WISE MAN GIVES HIS TRADE TO LEGITIMATE DEALER AND SAVES MONEY

Psenner-Doll, distributors of Philadelphia Diamond Grid batteries in Glendale territory are good authority on electric equipment and storage batteries for all automobiles. They also say that the time has actually come for the automobilist to observe more carefully the expense of his storage battery. It has become quite apparent that the careless buyer is beginning to have his eyes opened to the music of Old High Cost of battery service.

The more tuneful music brings out the harmony of the dealer and consumer.

We all come in contact sooner or later with the wise man who is loath to give his opinion from hear-say. He knows so much about storage batteries in general that he fails to tell you of the good qualities of the battery he represents. In fact—he is sure to arouse some doubt with a purchase—who can you trust?

"Somebody says" and "Everybody does" leads you to believe many untruths about storage batteries.

The unfair storage battery dealer makes his long profit from the inexperienced car owner. You generally find this dealer displaying over his door an attractive sign bearing the name of some popular long-guaranteed battery, but it is his point to try and sell you a battery without a long guarantee.

By his doing this, you lose what the thoughtful motorist is looking for today, a product that is put on the market to stay sold. A product that is backed to the limit by the manufacturer.

It is urgently advisable to the automobilist to purchase storage batteries from the legitimate distributor or dealer and without a doubt he gets a legitimate storage battery.

Storage battery quality cannot be based on the quality of the product alone, the service rendered after the sale of the battery has much to do with the quality of your success with that storage battery. We believe in quality and the autoing public is commanding a greater quantity of the quality service than ever before.

It is the idea of the manufacturer of Philadelphia Storage batteries to build a storage battery that will give 40 per cent longer life, to guarantee a battery for two years, and give better service than any other make of battery on the market. The reliability of our concern coupled with the national reputation of Philadelphia Diamond Grid batteries makes us very optimistic for the future, says Psenner-Doll.

'Black Beauty' Feature Of Glendale Program

With the Boy Scouts as the special guests of Manager William A. Howe tonight, "Black Beauty," Anne Stowell's immortal story, is shown in film for the last three times today at the Glendale Theatre.

Many magnificent and spectacular scenes have been made for this production, including a stirring fox hunt, a spectacular fire in the stable, a terrific storm in which a bridge is swept away, gorgeous ballroom scene and a thrilling race between horse and locomotive.

The picture is one that will hold attention from the first flash and will appeal to all ages and classes. It is told in a simple way and maintains all the quaint and picturesque manners and customs of the period in which the story was written.

The minuet, pirouette and dances of 1870 are illustrated and made such a hit with the players that in the motion picture colony at Los Angeles these dances are included as part of every dance program this year.

Elaine Hammerstein in "Pleasure Seekers" furnishes the feature for Sunday and Monday. In addition there will be the special organ concert tomorrow night, the tenth episode of "The Son of Tarzan," the latest Pathe News and Topics of the Day.

Postpone Meeting To Next Friday Night

The mass meeting which had been scheduled to take place last night at the south Glendale fire house, has been postponed until next Friday night, the meeting to be held in the same place. About twenty-five enthusiastic citizens braved the rain, but it was not deemed advisable to conduct the session with such a small attendance.

The gathering is being mustered by the South Glendale Avenue Improvement association, which was organized last week when they vigorously opposed the extension northward on Glendale avenue of the Forest Lawn cemetery.

S. C. PACKER RECEIVES WORD FROM HEADQUARTERS IN ANSWER TO RUMORS

Studebaker—the first big pleasure car to reduce prices after the war—now announces that their prices are dependable and that there will be no change in the present policy which is to give buyers the greatest value possible.

That is the information received by the Packer Auto company of Colorado and Brand boulevards which is the San Fernando valley distributor.

In a telegram received by this firm, Mr. Erskine of the Studebaker corporation, says:

"The rumor that the price of Studebaker cars will be reduced May 15 is without foundation. No price reductions are in contemplation at the present time."

It must be remembered that the Studebaker prices were dropped considerably last September which warrants the statements on the part of the manufacturer and representatives that Studebaker cars always offer the greatest value on the market at the present time, according to S. C. Packer.

Asks Questions About W. Broadway Cut-Off

Editor The Evening News:—I have just spent the day investigating the probable cost of the alleged improvement called the West Broadway cut-off. I have gone to the owners of the property or to real estate dealers who are thoroughly familiar with local conditions. To buy seven lots and pay for damages to No. 9 would cost at the very least \$75,000. One said \$90,000. Then the new street would have to be graded, paved, sidewalks, curbs and lights put in and because the west side of Central is nearly two feet lower than the east, Central would have to be repaved from the west extension of Broadway nearly to Hawthorne and Ivy would have to be repaved and paved for 300 or 400 feet. All of which would cost at least \$25,000 more.

To offset this the city would have some buildings and two triangular pieces of land, one worth \$5000, the other probably \$500, leaving a total cost of \$75,000.

Legal advice is to the effect that this must be paid by an assessment district and Broadway, Ivy and Wilson will likely be asked to pay about one-third of that amount. Now on that basis we will have quite a bill to pay and so far no one has shown me any commensurate benefit.

I have asked twenty-four auto drivers their opinion as to the comparative safety "as is" or as "proposed." Nineteen say safer "as is," four say not much difference and one, a notoriously reckless driver, says it would be safer changed. Now on that basis I do not feel inclined to pay a goodly sum for what would seem to be not only unnecessary, but actually dangerous. I am still willing to be shown if any one will demonstrate it is to be beneficial and to whom. In short, I would like to know, and there are others:

First—Who will be benefited?
Second—What will it cost?
Third—Who will pay the bill?

Total Resources over \$2,000,000.00.

Announces the opening of its Glendale office at 113 West Broadway on Monday, May 23.

Its object and purpose is to encourage frugality, savings and home building.

6% paid on Investment Certificates in sums of \$100.00, or multiples thereof. Money can be withdrawn at any time after one year, together with 6% up to date of withdrawal.

The lumberman, painter, plumber, brick manufacturer, decorator, contractor, architect, laborer and many others benefit immediately by these released funds. The established HOME makes one more outlet for the dry goods merchant, furniture dealer, produce and grocery market. Thus the wheels revolve, bringing back many returns to the citizen investing in Investment Certificates as offered by the Southern California-Metropolitan Loan Association.

Not only the money accumulated through the Glendale office will be loaned for building purposes in Glendale, but additional funds will be furnished by the home office from time to time.

Don't forget the opening day, Monday, May 23. Start your account on that date with any amount from \$1.00 up to \$10,000.00.

Hupmobile

Prices Reduced

to \$200 to \$325

Beginning immediately, Hupmobile prices are reduced \$200 on Open cars, and \$315 to \$325 on Closed cars.

The Five-Passenger car and the Roadster are now \$1485; the Sedan, \$2485; the Coupe, \$2400; all prices F. O. B. Detroit, war tax to be added.

What this reduction actually means is an increase in Hupmobile value that is worth far more than the revision in price.

The truth is that at its new price, and with its well known economy, low repair costs, long life, and high resale value, the Hupmobile stands forth today as the best buy in the motor car market.

This revision represents the rock bottom figure at which the high quality of the Hupmobile can be maintained.

Studebaker

What does this mean?

A comparison between the first four months of 1921 and the first four months of 1920 shows the remarkable increase of 176% in retail orders in Los Angeles County for STUDEBAKER CARS, while the increase in the sale of Studebaker Parts over the same period has been only 30%.

This is only additional proof of Studebaker Superiority and the sterling quality of materials used in the construction of Studebaker automobiles.

Compare Studebaker cars point by point with other cars selling hundreds of dollars higher than Studebaker prices—and we will be satisfied with your judgment.

Do You Know What Your Battery Costs You a Month?

—If you have a Philco Retainer Battery the answer is: One Twenty-fourth of its original price—because the Philadelphia Diamond Grid Battery with the Philco Retainer is

Guaranteed for Two Years

—This is the longest, strongest guarantee back of any nationally known battery. It is made possible because of the additional lasting qualities supplied by the Philco Retainer.

—This retainer is patented. It adds at least six months to the life of the battery. With good care a Philco Retainer Battery should last longer than twenty-four months, in which case your cost per month will be even less than the price divided by 24.

—After careful comparison with other batteries the Psenner-Doll chose the Philadelphia as we believe it is the best all-round battery on the market.

The Philadelphia guarantee is transferable. Your purchaser is not buying an unknown quantity. A two-year battery increases resale value just as surely as good rubber and good paint.

TELLS BRIEFLY WHY NATION NOW READY OAKLAND AUTO IS FOR RENEWED ERA. OF BIG VALUE OF PROSPERITY

STRONG ARGUMENT IS MADE
BY F. W. McCLELLAN; OVER
200,000 ARE OWNERS

F. W. McClellan of Green & McClellan, Oakland motor car distributors here at 115 West Harvard street, believes he could write a book on why people should buy the automobile which he represents. Instead of doing so, however, he puts in a few words the big argument which he uses in selling this popular pleasure car. He says:

"Comparatively speaking, the Oakland Sensible Six is the best dollar for dollar value in the automotive industry. Consistent improvements of this car since it was first introduced to the motoring public make it a peer in the lightweight class.

"The Oakland possesses the qualities of endurance, reliability and economy. It gives all-round service, which is the foundation for the manufacturers' rise to a position of one of the largest builders of automobiles in the world today.

"It's Comfortable, Too
"The Oakland is artistic, durable in finish and, above all, comfortable. It is powerful, smooth on the long, heavy pull up grade or over rough roads and meets every condition of travel.

"Light in weight, perfect in balance, rugged in makeup and economical in operation, it serves every requirement needed by Glendale motorists," concludes Mr. McClellan, "and the large number of buyers who are, seeking to invest their money wisely with the greatest possible return are sure to look at the Oakland before making a decision for the facts which I have stated are fully proven by 200,000 Oakland owners."

A bill to make the moving of a stolen automobile between states punishable by five years' imprisonment and \$5000 fine was introduced recently in Washington by Senator Nelson of Minnesota.

BUSINESS OUTLOOK BOUND TO
BE ENCOURAGING, ASSERTS
NASH COMPANY HEAD

"With the abundance of material wealth in the country today, the business outlook is bound to be most encouraging," says C. W. Nash, president of the Nash Motors company and one of the country's foremost manufacturers.

"America is today the richest nation in the world. This will not be questioned. For some years past we have acted as the main source of supply for other countries. The volume of our production in most lines has been limited only by our ability to produce and not by the size of the demand.

"Our products have been sold at top prices. In payment for these products there has been a steady flow into this country of the money of the world until America, instead of being saddled by stupendous financial obligations as are most of the other countries, stands in the enviable position of being the world's creditor—the greatest money power among nations.

Balance on Right Side

"As a nation we are more than solvent. We have a handsome balance on the right side of the ledger. And this wealth is not concentrated in the hands of a few individuals. It is spread through every industry and every layer of the nation's economic life.

"A process of liquidation is taking place which is putting the money of the country into healthier lines of business enterprise. While the banks report no radical reduction in the total amount of loans, they do report an increasing liquidation of outstanding obligations and a consequent increase of new loans which means that the nation's money is going back to work again and that buying power is on the increase.

"The present condition of business indicates pretty clearly to me that there is bound to be an improvement in the buying market in automobiles and kindred lines in which I am, of course, primarily interested, but that business, as a whole, soon will be, to quote the old slogan, 'Carrying on as usual.'"

Bebe Daniels Appears In Palace Grand Film

You remember the old slogan: "Don't travel, telephone!" Well, that is the motto which Bebe Daniels, as the heroine of the dashing comedy, "Ducks and Drakes," adopted for herself until one time when she called up the wrong man "just for fun" and got herself into a house-boat full of trouble.

Here is an unusual plot, and an hour or so of genuine fun for you! And while the heroine telephoned instead of traveled, you will agree with us that she could be a very speedy little traveler when the occasion arose. Don't miss Bebe Daniels in "Ducks and Drakes" at the Palace Grand theatre today only. The weather the last two days certainly is in keeping with the title, "Ducks and Drakes." "The Skipper's Treasure Garden" is the Toonerville comedy on the program and the music is equal to the pictures.

"The Faith Healer" tomorrow and Monday should attract Glendale audiences because it is a George Melford production. It is said to be one of the most beautiful pictures produced by Lasky for Paramount. The theme is William Vaughn Moody's great play and throughout the strong dramatic action runs the threads of a fine love story.

Oil Field Trip Is Postponed To Tuesday

All Glendale people who can make the trip are invited to visit the big oil wells of the Huntington Beach district. Those who haven't cars will be accommodated in cars furnished by the company. EVOLUTION SLOGAN FOR PERFECTION OF AUTOMOBILE

GRADUAL EFFORT IS BETTER
THAN REVOLUTIONARY WAY,
STATES KING BARTON

"Evolution, not revolution, is the slogan which applies with as much force to automobiles as it does to many other things in life, and the preference of the motorist and the dealer for a car perfected like the present Hupmobile through gradual evolution instead of abrupt revolution, that is, new models, is being more emphatically expressed every day," said King Barton, local Hupmobile dealer.

"To the prospect, the advantages of evolution are many. His car enjoys a higher second-hand value when it is generally known that no radical new models are to be announced within a short time after its purchase.

"Then there is the question of style. Revolution insures a body design, possibly conservative, yet of permanent beauty. This is fully exemplified in the Hupmobile. A brand new model may possess some striking new style feature which soon proves only a passing fad. In such cases the owner is the one who must bear the burden of this experiment.

"Service also is an important item. Naturally a car that has been thoroughly tested out by many thousands of owners will give less trouble in the first place; and if the necessity for adjustment or repairs arises, the more complete knowledge possessed by the mechanics will reduce the charge to a minimum.

"We prefer to handle a car so created, first, because whatever is good for our owners is equally helpful to us, and also because our sales problem is simplified."

LATE FIGURES SHOW FORD PRODUCTION IS INCREASING

FACTORY OPERATING ON FULL
TIME, SIX DAYS PER WEEK,
THREE SHIFTS DAILY

Ford is building cars at full speed. And, according to an official statement from the factory at Detroit, the demand for Ford cars and trucks still exceeds the output, despite the fact that a new high level of production has been reached.

By the first of May the figures representing daily production were in the neighborhood of 4000 a day, so the May schedule was set at 101,125 cars and trucks, not including the output of the Ford Canadian plant or any of the foreign assembling plants. The output mounted daily; May 12 brought forth 4092, the greatest number that have been produced in one day so far this year. Since the month has twenty-five working days, present indications point to a new high record.

A comparison of Ford production figures for 1920 and 1921 discloses the fact that for April, 1921, the output was greater by 34,514 than for the corresponding month of a year ago. The output for May, 1921, will probably overshadow May, 1920, by between fifteen and twenty thousand cars and trucks.

Approximately 43,000 men are at work in the Detroit plant of the Ford Motor company. The factory is operating on full time, six days a week and three shifts a day.

"We were never in a better condition than we are right now," said Henry Ford recently.

FINE WORK DONE BY LOCAL RED CROSS ORGANIZATION

NATIONAL AND HOME HELP IS WELL CARRIED OUT; CLOSE TO 2000 MEMBERSHIP

Although the world war has been over for some time, the good work of the Red Cross is still going on. The present officers of the Glendale chapter are Mrs. H. E. Bartlett, chairman; Mrs. W. W. Worley, vice-chairman; Mrs. John Robert White, secretary; Miss Neva Vesey, treasurer. Members meet at the call of the chairman.

Money for the Red Cross work is secured by means of the annual drive for membership which is held in October. One-half of the amount of each membership is forwarded to Washington for the use of the national organization during times of emergency, such as flood, fire and famine. The other half is used for local relief and home service work.

The Pacific division of the Red Cross, of which the Glendale chapter is a part, suggested that any unappropriated funds might be sent to the Hoover fund for the relief of European children. Acting upon this suggestion the local chapter sent \$500 about the first of this year.

In Behalf of Babies
At the present time the members of the local Red Cross chapter are busily at work on the completion of forty-eight sets of layettes for some of the babies in middle and eastern Europe. Last fall twenty-five sets were sent. A drive for these garments is being made throughout the United States. For these and other children's garments \$412.22 has been spent since January 1.

The department of home service, of which Mrs. Arthur Brown is chairman, receives many letters from parents of the boys at Thornycroft asking that certain details of their comfort and welfare be looked after. Persons who are temporarily in need are also looked after by this department. Cases that cannot be handled by the Red Cross are turned over to the Glendale Welfare Bureau or other organizations.

Home Service Work
Since January 1 the local Red Cross chapter has spent \$122.35 for home service work. At the present time the Red Cross is giving \$50 a month toward the salary of a public health nurse, which position is being filled by Miss Helen McAlonan, to assist Dr. J. E. Eckles, health officer of the city of Glendale.

The local Red Cross chapter has a paid up membership of 1996 and had a balance of cash on hand in the treasury May 1 of \$587.99.

The Westminster Guild of the Presbyterian church met last night at 6 o'clock, at which time a cafeteria supper was served to twenty-six members by Miss Martha Eilers, Miss Mildred Elliott and Miss Inez Harrison. A short business meeting followed, which was presided over by the president, Miss Mary McDill.

Locals And Monrovia Contest Next Tuesday

Postponing games seems to be one of the favorite indoor sports of the Glendale High School baseball team, whether it be on account of inclement weather or other less important reasons. Yesterday the local ball tossers were scheduled to play a regular league game with Monrovia, but the unexpected May showers were too much for the athletes, resulting in the third consecutive postponement for the Black and Red gladiators.

The contest will be played Tuesday of next week at the Monrovia grounds, and a large crowd of Glendale rooters is planning to accompany the team. Monrovia and Glendale are ancient diamond rivals, and whenever these two squads tangle a real game is always the result. "Dusky" Shaw will pitch for Monrovia, while Glendale will be represented on the mound by "Hookem" Ageson.

Photographic sketch of first prize battery in Gould Endurance Contest. Service record 5 years, 1 month. Owned by Mrs. J. M. Tele, Dallas, Texas.

AND this is its \$1000 record! Purchased November, 1915; never repaired; active service record 5 years, 1 month; entered in Gould Endurance Contest; registered 115% capacity at the standard 20 minute discharge test.

No less remarkable, and even a stronger proof of Gould quality, was the average service record of all the hundreds of Contest entries—4 years, 1 month.

These records prove that with proper care, the Gould battery insures its owner longest life and therefore the most economical service.

And now, we announce a new Gould Dreadnaught Battery—a super-service battery. It has the same famous long life Dreadnaught Plates, protected with the new Dreadnaught Armored Separators. Ask us about it.

By Saturday evening the chapter of his life was closed. He died from heart trouble at the age of 77 years at his home, 1247 South Maryland avenue, South Glendale.

Known as "the blind minister," Mr. Eshelman made use of his declining years in a most remarkable manner. He had a Blickensderfer typewriter especially equipped on which he wrote hundreds of pamphlets and many books. His last work was "A History of the Church of the Brethren." Other current books by him are "The Operations of the Holy Spirit as Taught in the Bible" and "The Open Way Into the Book of Revelation."

The divine's service in the Union army in the Civil War consisted of two enlistments as a member of the Pennsylvania volunteers in which he rose to the rank of sergeant. Upon discharge he became a teacher, editor and immigration agent respectively. In the latter work for the Santa Fe railroad, he made 120 journeys between Chicago and Los Angeles establishing colonies, schools and churches.

Frances Dodson And Paul A. Black Wedded

Paul A. Black of Glendale and Frances Dodson of Baker, Oregon, were married at 7 o'clock yesterday morning at the home of the bridegroom's parents in Santa Ana. It was a very simple wedding, the young couple being unattended, and was followed by a three-course breakfast. Mr. and Mrs. Black left for Catalina Island, and after a short honeymoon trip will be at home to their friends in Glendale.

Mr. Black is one of Glendale's younger business men, having come to Glendale and purchased an interest in the Autolelectric Service company, handling Exide batteries, at 113 West Harvard street two months ago.

The wedding was the culmination of a college courtship, both Mr. and Mrs. Black being graduates of the University of Colorado at Boulder, Colorado.

Upon the completion of his college course, Mr. Black went into the army and at the time the armistice was signed was a lieutenant in the Field Artillery. He is an ardent American Legion booster.

May Pole Dance Is Feature Of Elks' Ball

Despite the rain, the dance given by the local Elks Saturday was attended by about fifty couples. The entertainment committee, of which Joe Bellue, J. H. Hearshaw, W. B. Kelley, E. P. Hayward, Harry Whaley and Robert Jensen are members, had decorated the ballroom with a Maypole, with vari-colored festoons, from which festoons of green radiated to the four corners of the room. Music for dancing was furnished by Henning's orchestra.

During the intermission refreshments of French pastries and ice-cream were served in the banquet hall. Favors of fans were given the ladies. Towards the close of the evening the guests joined in the Maypole dance, which created a great deal of merriment. The jolly time enjoyed by those who attended more than repaid them for venturing out in the storm.

Picnic Party Selects Store Building For Site To Eat Lunch

Sunday was a beautiful day for picnics. It rained most of the time. But one Los Angeles party which started out in the short- lived sunshine of the morning had their picnic anyway. They drove their car into the new store building being erect- ed by William Hildley on the southwest corner of Broadway and Orange street and there they ate lunch.

SOMETHING TO WEEP OVER

S. O. S.
That was the message re- ceived by the Glendale Chamber of Commerce this morning from the Coachella Valley Chamber of Commerce of which Harry L. Howe, formerly a teacher here, is an officer. Seems as though the freight rates have ruined the profits in the onion crop. As a result, anyone wishing 100 pounds at \$1.50 f. o. b. Coachella should advise the Chamber of Com- merce there. In this way they hope to sell the onions at cost of production.

Dr. George T. Harding Talks At Loma Linda

Members of the Glendale Seventh- day Adventist church were very much interested in the announcement that Dr. George T. Harding, Jr., youngest brother of Warren G. Harding, presi- dent of the United States, was to de- liver an address at the commence- ment of the college of medical evan- gelists at Loma Linda Saturday night.

One of the tributes paid to the medical profession by Dr. Harding was that "there is no profession where the opportunities for unselfish service are so great or where the opportunities for selfish gain are so many." He emphasized the impor- tance of believing in the principles of Christianity in rendering medical service and devotion to humanity.

The college at Loma Linda is maintained by the Seventh-day Ad- ventists. Dr. Harding is in charge of the Rural Rest Home at Columbus, Ohio, an institution of the church.

Dr. G. T. Harding was accom- panied to California by his son and daughter. They will visit Dr. Har- ding's sister, Mrs. E. E. Remsburg at Santa Ana after leaving Loma Linda.

Baby Boy Arrives In Midst Of Heavy Rain

Among the many Glendale people who have been favored by Jupiter Pluvius during his most recent ram- page, Mr. and Mrs. Wayne R. Smith of North Maryland avenue claim to be the most fortunate. Their gift, which was bestowed upon them along with several inches of rainfall, came in the form of a bouncing eight and a half pound baby boy. The new arrival has been named Wayne Logan, the former from his father and the latter from relatives on Mrs. Smith's side of the family. Both mother and son are doing nicely. Mr. and Mrs. Smith are both well known among the young people of Glendale, both having lived here many years. Mrs. Smith was formerly Miss Dorothy Hobbs of South Central avenue, where she lived prior to her marriage two years ago. The couple were members of the same class in the local high school, graduating in June, 1915.

PRESIDENT HARDING REVIEWS NATION'S WAR DEAD

NEW YORK, May 23.—There was a review of the nation's war dead by the president of the United States today. While a band played a dirge, President Harding, with bowed head, walked slowly through the long aisles formed by 5212 rough caskets containing the bodies of American soldiers brought home from France. The scene of the gloomy pier at Hoboken was very impressive as the chief ex- ecutive passed down the ranks of flag draped coffins to the sombre beat of muffled drums. "There are 100,000 soldiers rows touching my heart," he said in his eulogy, "and I hear the admonition ringing there—this must not be again; this must not be again." After the speech, the president placed a wreath on the casket of Joseph W. Geiger of Hart, Mich., a member of Company I, the 126th infantry, who was the first American killed on German soil.

IT RAINED! 2.48 IN STORM, 17.60 FOR SEASON—SO FAR!

CLOUDS CLEARING AND FAIR AND WARMER ON TUESDAY, SO WEATHER MAN SAYS

With a total of 17.60 inches of rainfall this season as against 16.01 of last season, southern California today is recuperating from the great- est May deluge in its history.

At Saturday noon when 1.72 inches had fallen, it was announced that records for fifty years had been smashed. But when 2.48 inches fell during the week-end, nothing in history since the flood of biblical lore likely has compared with the un- usual weather.

Nearly two inches of rain came down Saturday afternoon, according to H. E. Bartlett, local weather ob- server. This should materially re- duce the high cost of irrigation, al- though the rain has done much dam- age to the hay, barley and strawber- ries.

The weather prediction for tonight is cheerful, however. Col. H. B. Hersey at Los Angeles this noon pre- dicted the clouds would clear, and the morrow would be fair and warmer.

Among the damage done locally, Burbank's phone service with the outside world was discontinued for twenty-four hours when water flooded the cable. Approximately 200 lines were out of commission yesterday morning, according to Fred Deal, manager of the Glendale district for the Pacific Telephone and Telegraph company. This situation is being ameliorated rapidly how- ever.

Verdugo Wash Is Dry

While Sycamore canyon wash was flooding across Broadway and Wil- son avenue, there was not a drop of water in Verdugo wash which played hob six years ago.

Several cellars were flooded and much mud washed over walks and highways. In the Arroyo Seco one woman lost her life and a great lake has been formed back of Devil's Gate Dam. Many Glendale people are motoring to Flintridge to see this work of nature.

Bean Crop Washed Out

LOS ANGELES, May 23.—The storm which has been wrenching Southern California almost without letup since Thursday has about spent itself, the weather bureau indicated today.

"Tonight clearing, Tuesday fair and warmer," was the forecast given out this morning by Observer H. B. Hersey.

Reports today indicate that great damage was done to the hay and bean crops. Considerable hay, cut and lying on the ground was ruined, while bean growers declared it will be necessary to replant practically all of their acreage as the seed was washed out.

Citrus crops were benefited very much by the rain, it was said.

FORCED TO RESIGN

WARSAW, May 23.—Owing to the pressure of the allies and others in- volved in the Upper Silesian situa- tion, Prince Sapieha, Polish foreign minister, has resigned. The resignation and other events aroused the Polish press to a frenzy of anger in which it threatened that "an army of Polish heroes" will be remobilized to fight "Great Britain, Germany, anybody or everybody."

Naval Men Take Part In San Pedro Riot

SAN PEDRO, May 23.—Added
patrolmen and doubled beach guards
from the Pacific fleet were patrolling
the streets of San Pedro today to
prevent recurrence of rioting, follow-
ing a brawl at 1 a. m. between two
factions of merchant seamen in
which bluejackets took part.

Five members of the crew of the
Admiral liner, Queen, were severely
beaten, two marine engineers were
jailed as ringleaders in the riot and
five navy men are held by fleet au-
thorities as rioters.

The trouble started, according to
the police, when a party of striking
union seamen led by Daniel Hogan,
24, and Melvin Kiff, 22, both marine
engineers, encountered a group of
sailors from the Queen enroute to
their ship after a meal ashore.

The police charged that Hogan
and Kiff incited the naval men into
taking part in an attack on the
Queen's men. Although several were
severely beaten in the fight only one
man would go to the receiving hos-
pital for treatment. He was L. F.
Thompson, of the Queen, whose face
was badly cut and bruised.

Glendale Ranks High Among Pacific Coast Cities In Construction

Glendale maintains its high rank
in building operations, according to
a compilation for April by the
Southwest Builder and Contractor,
which shows this city in ninth place
on the Pacific coast. Los Angeles
is fifth in the nation.

Los Angeles easily leads in coast
building, with Portland, San Fran-
cisco and San Diego coming next in
turn. Venice with its new pier and
other civic improvements noses out
Glendale in its class, but it is very
doubtful if any other town shows
the number of new homes in propor-
tion to population as are being built
here this spring and summer.

Following are the figures from
the coast cities for last month:

Los Angeles	\$7,250,571
Portland, Ore.	1,940,305
San Francisco	1,913,592
San Diego, Calif.	1,657,055
Long Beach, Calif.	1,505,400

DESCIPLE PETER IS
TOPIC FOR TALKS
BY REV. CRIST

BOTH MORNING AND EVENING
SERVICES GIVEN OVER TO
SERMONS ON SERVICE

At the First Methodist Episcopal
church, the pastor, Doctor C. M.
Crist, preached both morning and
evening on the Disciple Peter.

The morning text was in Luke 22.
part of verses 31-32, containing
these three sentences, "Simon, Be-
hold Satan hath desired to have you,
but I have prayed for you. Where
thou art converted, strengthen thy
brethren."

"The circumstances under which
these words were addressed by
Christ to Peter were historical," said
Dr. Crist.

"They had first partaken of the
'Last Supper.' Christ, realizing
that his time was drawing near was
instructing his disciples, teaching
them the great lesson of service and
humility. Following this he ad-
dressed Peter in the language of the
text, using his old name, Simon, say-
ing, 'Simon, Simon, behold Satan
hath desired to have you, that he
may sift you as wheat.' Satan re-
cognized that Peter was a leader, to
capture him, a master stroke. To
thwart this purpose Christ warns
him of his danger and the danger,
through his downfall to the early
church. Peter had a tendency to im-
pulsiveness, a trait that if wisely di-
rected, is a great power for good—
a sign of life, of activity. There is
greater danger of indifference.
Satan has designs along other lines,
work, fault-finding, super-sensitiv-
ness. This last class are to be es-
pecially pitied."

For People of Today Also

"I now come to the second part
of Christ's address to Peter, 'But I
have prayed for thee that thy faith
fail not.' These words addressed to
Peter are also for us. In all our
weaknesses and danger and help-
lessness, Christ is saying to us, 'I pray
for them that their faith fail not.'
In the garden, Christ prays all night,
not alone for himself, but for his
disciples, that their faith fail not.
By this means of prayer we can be
overcomers. During my entire min-
istry I have been strengthened by
the prayers of Godly friends and as-
sociates."

"Then follows Christ's next in-
junction, 'Strengthen Thy Brethren.'
This leads us to the thought that in
our Christian life we are independ-
ent. We need help from God and
from our fellows. We are saved to
save—not only saved to get a bless-
ing, but to be a blessing. As a re-
sult of divine help, Peter became a
rock and upon his confession, 'Thou
art Christ, the Son of the living
God,' the church was founded. And
so, others have gone forth, through
the divine plan, the nature of grace.
Having received it, the desire be-
comes dominant to pass it on to
others. Peter's one great mistake
was in thinking that he could fol-
low Christ apart off. It is little
short of a tragedy to be so far from
Christ, that we cannot reach others.
Let us keep close, so that our lives
may receive the divine touch and we
in time, touch others."

Services Sunday Night
In the evening the subject was
"Peter's Maturity," text, 2 Peter
1:16, "For we have not followed
cunningly devised fables, when we
made known to you the power and
coming of our Lord Jesus Christ,
but were eyewitnesses of his ma-
jesty." Said Dr. Crist:

"There is a peculiar charm and
fragrance pervading this entire
epistle, for the faltering and deny-
ing disciple has now come to the full
maturity of a Christian warrior. He
has suffered imprisonments and per-
secutions for the sake of the gospel,
but the prayer of Christ mentioned
in my morning text accomplished
its purpose. His faith has been
strengthened, until he became a man
of rugged faith and had become a
strengthener of other men's faiths,
until grown old and having a revela-
tion from his Lord and Master,
Jesus Christ, that his end is near,
he now exhorts his brethren to
greater diligence. The common
things of life lose their significance
under these circumstances and he is
engrossed with eternal matters."

Naturalness and Simplicity
"If we but could catch these vis-
ions and realize the shortness of our
existence, how different we would
think and act. His message is an
example of naturalness and sim-
plicity. His mind, no doubt often
reverting to Christ's words at the
Last Supper, 'I have prayed for you,
Simon, that your faith fail not,
and when thou art converted,
strengthen thy brethren.' It has
been his constant inspiration and it
comes down to us and stirs our
hearts."

"Peter was just a man with man's
weakness, but through Christ his life
became an inspiration to encourage
us. He became a conqueror and
stood at last, the supreme test, by
dying the death of a martyr. The

Yosemite Park Opens
Earlier Than Usual

YOSEMITE, Cal., May 23.—Montor
travelers are thronging Yosemite
National park fully a month earlier
than usual, due to the early opening
of trails, Superintendent Lewis an-
nounced today.

The long eleven-mile trail to Glac-
ier Point by way of Vernal and Ne-
vada Falls, one of the most popular
hikeback trips in the park, is re-
ported by park attaches to be in
good condition and open to riders
its entire length. Merced Lake and
the top of Yosemite Falls also can
be reached by horseback, according
to Lewis.

Ten feet of snow was found on top
of Half Dome, which rises 5000 feet
sheer above Yosemite valley, and
hardy climbers who made the ascent
last week say that touring parties
should experience no trouble attain-
ing the top now.

Heavy Damage Result
Of Fire On Steamer

NEW YORK, May 23.—Soon after
fire on board the United States ship-
ping board steamer, Panhandle State,
was extinguished an investigation
was begun to determine the cause of
the blaze.

The ship, a 10,500-ton passenger
ship built last year and valued at
\$5,000,000, caught fire from a leak-
ing fuel oil tank and was towed from
her North river pier and beached off
Ellis Island to prevent her total de-
struction. She continued to burn
for many hours. The damage was
heavy.

The Panhandle State caught fire
just after a strike-breaking crew of
300 had boarded her following de-
sertion of the regular complement
to join the marine walk-out.

PERFECT MAID AND
RICH CONFESSES
\$25,000 THEFT

WIFE OF MILLIONAIRE SAYS

SHE HAD NO REASON FOR
HER STRANGE ACTIONS

CHICAGO, May 23.—The family
of Mrs. Joseph S. Heil, millionaire
maid and confessed robber, stood
loyally by her today as she stood ac-
cused of stealing \$25,000 worth of
household goods.

Two children and her husband re-
mained with her at the detention
home throughout the night, while
she underwent examination to deter-
mine if she was a "Raffles" or a
kleptomaniac. The verdict of the
physicians and police was that it was
a clear case of kleptomaniac.

Mrs. Heil, charming young wife
of a millionaire banker and invest-
ment broker, lived in a palatial
home, surrounded by every luxury.
Her husband gave her \$300 a month
for pin money and besides paid the
bills for everything she purchased.

Called "Perfect Maid"

She had a nurse, a cook, two
maids and a houseman. She was the
mother of three sturdy young boys
and a girl, recently married. Yet
when police traced her to her home
they found \$20,000 worth of stolen
household goods and jewelry rang-
ing from canary cages to diamond
rings, silver and de luxe editions.
Pawn tickets for \$5,000 worth of
goods which had been disposed of
were found.

Mrs. Heil was identified as "the
perfect maid" by a score of house-
keepers in the North Shore Gold
Coast. They identified her as the
former, who for many months, has
answered ads for a "maid" and after
staying a few days, would disappear
with the most expensive household
articles on which she could lay her
hands.

Mrs. Heil used her own \$6,000
automobile to haul the goods to her
home. She explained to her husband
and children that she purchased the
goods at auction. They thought she
had a penchant for auction sales.
Her husband made out checks to her
covering the amount which she said
she paid for goods brought home.

"No Reason to Steal"

The arrest of Mrs. Heil followed
the robbery of the home of Mrs. A.
Miller on Wednesday. Two men had
seen her loading the household
goods into a limousine, identified
her later after the robbery was re-
ported, and called police.

"I had no reason to steal," Mrs.
Heil cried, piteously. "My husband
gave me everything I could possibly
want."

"I never knew I had taken the
things until I would see them about
my home. I was so ashamed after-
wards I would hide the things. I
would lie. I would steal again,
though. I couldn't help it."
The case was more distressing be-
cause Mrs. Heil is soon to become
a mother again. Members of the
family said Mrs. Heil was injured
in an automobile accident and an in-
fection set in. A wound in her limb
has never healed and they believed
this had affected her mentally. She
was confined in a sanitarium for
some time.

Heil paid an income tax on \$155,-
000 in 1920 and on \$88,000 this
year.

Find No Extortion Plot

Authorities plied the unfortunate
woman with questions to determine
if she was in the hands of gamblers
or extortionists. She apparently was
not.

Families who have been robbed
within the last year by a "perfect
maid" formed a procession through
the Heil mansion identifying articles
as theirs which the Heil family
thought had been purchased at auc-
tion by Mrs. Heil.

"I don't know why she has done
this terrible thing, but I will stick
to her to the end," said her mil-
lionaire husband.

Mrs. James Carolan, a 20-year-old
daughter and a bride of a few weeks
fainted when she heard her mother
was arrested. As soon as she was
revived she hurried to her mother's
side and refused to leave.

VALUES OF LUTHER SING SONG OF LORD LEAGUE RELATED BY DR. FUNK

PASTOR TELLS OF GROWTH OF LUTHERAN CHURCH; STATES YOUNG PEOPLE'S PART

Taking the topic, "Religious Propaganda," based on Acts 17:23, "For as I passed by, and beheld your devotions, I found an altar with this inscription, 'To the unknown God.' Whom, therefore, ye ignorantly worship, him I declare unto you." Dr. H. C. Funk, pastor of the First Lutheran church, spoke to his congregation yesterday on the distinctive types of Christian piety.

"The Lutheran church," said Dr. Funk, "with more than eighty million members, is not a sect but a world religion, for her followers are found in all lands, and in well-nigh every island of the seas, where she preaches the gospel in a hundred different tongues. Moreover she has maintained a marvelous unity. Never, in her 400 years of history, has our church ever been rent asunder with one division going out to organize a new denomination.

Due to Its Teachings
"This wonderful solidarity in the Lutheran church is largely due to her doctrinal teaching and the careful training of her children. In harmony with this principle I am glad to speak to you this morning on the value of the Luther league in developing a Lutheran consciousness.

"The Luther league is a training school. Its chief concern is to fit young men and women to do efficient service for the church. Developing her youth is the most important work the church has to perform; and the best book on methods is the Bible.

The Lutheran church is enjoying a phenomenal growth, and much of the credit is due to the interest that has been aroused by progressive measures that have been caused by the young men and women in the church.

Further Developments

"We have learned that when you want to make haste it is sometimes wise to go slow. Indeed, our church has been very slow about joining the many new measure movements that have been in vogue during these latter days. She long ago realized, however, that a serious defect formerly existed in her plan in that confirmation was often followed by a lack of further development on the part of the young people whose vows had inspired the multitude that were witnesses to their good confession.

"Recognizing the need of active co-operation on the part of all the members, Dr. J. M. Remensnyder organized a Lutheran Young People's society in 1875, five years before the Endeavor society was organized. The Luther league of America was organized at Pittsburgh, Pa., in October, 1895. The denominational young people's movement arose because each general body has certain historical ideas, and a doctrinal basis peculiar to itself, which are essential to its continuance.

"As in our national life the flag, the constitution, and our form of government are cherished, so there are fundamental doctrines, interpretations of the Word of God, forms of worship, that have resulted in a form of piety that characterizes our household of faith. These are so deeply rooted, so dear to the heart and life of our church that they determine her very existence.

Spirit of Devotion

"Now if these matters of faith and practice are deemed so important, if they are held so dear, it follows that we cannot fail to recognize the value of having this spirit of devotion and loyalty to her ideals instilled into the hearts and minds of her youth. Indeed, a great benefit is derived for the congregation in the development of our young people through service; by giving them something to do. We become efficient in every other art by working at it. This holds equally true for the league.

"To appreciate the benefits of such an organization to the church we need only state its purpose, its motto and its method. The purpose of the league is to develop within each individual congregation a company of intelligent, energetic, faithful Christian workers. Thus it is evident that the very existence of such an organization within its fold must be of the greatest value to a congregation. Hitherto the young confessors of Christ in confirmation entered the church as communicant members; but many of them soon began to drift, because 'satan finds mischief still for idle hands to do.' But this great power that formerly lay dormant is now being organized and utilized for the advancement of the congregation.

"What is perhaps the most commendable feature of the league is the fact, as its motto states, that it is 'Of the church, by the church and for the church.' In short, it is in perfect harmony with, and under the supervision of the pastors and the church. It is not an organization independent of the congregation, working for its own end and for its own glory. Our pastors need not be alarmed lest the young people assume authority and dictate to the

SING SONG OF LORD IN STRANGE LAND, URGES PASTOR

NO RELIGION IN PERMITTING YOURSELF TO BE MISERABLE SAYS REV. CALDERWOOD

Rev. C. M. Calderwood's subject at the First Congregational church yesterday morning was, "Harpis Hung on Willows." The text was the account of the children of Israel in captivity in Babylon. When asked to sing the Lord's song, they said, "How can we sing the Lord's song in a strange land?" They hung their harps on the willows and sat down and wept. Mr. Calderwood said, in part:

"We fit these words to other people's. We sit down and weep when we remember what Zion once was. We must not justify our hanging our harps on willows and refusing to sing the Lord's song. We should not give our approval to substituting for the Lord's song the luxury of tears, and neither should give approval to the practice of hanging harps on willows that were made for hands. This Psalm is a warning, not a guide. It sounds religious, but it is not religious at all.

"There is no religion in allowing yourselves to feel just as miserable as you can, and that is what the Jews did. We do not condemn them for their sorrow, but we do condemn them for hanging their harps on willows and refusing to sing. They put away from themselves the means they had of counteracting depressing influences. They used pleasant memories as a cause for sadness, not for joy.

Song of Religious Faith

"The Lord's song is a song of religious faith and a strange land is just the place to sing it. They needed to sing it for their own sakes. Religion is not kept vigorous on a diet of precept and logic alone. These Jews did not realize that they had learned the Lord's song in Jerusalem in order that they might sing it in Babylon. They needed the courage and hope that such songs could bring. If they had sung the Lord's song and used their harps they would not have so much of their religion as they did while in Babylon.

"They should have played their harps and sung the Lord's song for the sake of the Babylonians. Their songs of redemption and faith would have been good for the people of Babylon. The Jews had an opportunity to show the greatness of their religion and what it could do for them while they were in exile. They neglected to use the means that God had placed at their disposal.

Sing It In Strange Land

"There is something wrong with a religion that cannot find its expression under distressing conditions. We learn the Lord's song in order that we may sing it in a strange land. If we do not sing the Lord's song, it may not be sung. Singing the Lord's song will do more to keep God from being forgotten than repeating vows that we will not forget him.

"Order your life aright and you can sing the Lord's song anywhere and under any conditions. If the Lord's song is to be sung it must be in the heart. 'Earth has no sorrow that Heaven cannot cure.'

'Marrying Parson' Is Given Church Hearing

WINONA LAKE, Ind., May 23.—Maryland's "marrying parson" went on trial here. The case of Rev. J. L. McElmoyle, accused of running a "gretna green" in his little parsonage at Elkton, Md., was argued before the judicial commission, the Supreme court of the Presbyterian church.

Several years ago the Reverend McElmoyle was charged with indiscreetly marrying elopers who dodged over the state line from Pennsylvania and Delaware.

In the case, which was reviewed before James P. Goodrich, Indiana's former governor, who presided over the high tribunal today, it was charged that the minister married thousands of couples in the little town. One count against him states that as many as one thousand couples were united in one year.

The hearing today brought out the allegation that Reverend McElmoyle and the minister of another Elkton church were running a race for "gretna green" honors to see who could marry the most couples and that the former was in the lead when the Presbytery of New Castle, the lowest court, stopped the alleged marrying marathon.

The case was dragged through church courts and Presbyterian authorities suggested that the pastors resign.

Decision by the judicial commission will be on whether or not the lower courts had power to make such a "suggestion." The findings of the court will be made public to the general assembly next Wednesday.

pastor and the official board what they must do.

"The methods of the Luther league may be summed up under three general heads; namely, educational, devotional and social."

San Fernando Valley

Alfalfa Growers Organize

Alfalfa growers of the San Fernando valley organized at a meeting held recently in Van Nuys. Earle Roberts, president of the Antelope Valley bank of Lancaster addressed the 150 ranchers present on the success of the organization up country. A. Gregory of Redlands, president of the state association, explained the manner of organization and at the close of the meeting H. M. Maddaford, general sales manager of the association, signed contracts with fifty valley ranchers for their output this year. Following are the representative men selected to act as incorporators: E. L. White, Burbank; B. Maxwell, Lankershim; T. M. Edmondson, Van Nuys; E. D. Grant, Van Nuys; Ben Kenney, Owensmouth; L. T. Guild, Jr., San Fernando; J. R. Anderson, Zelzah; A. J. Gibson and Fred S. Owen of San Fernando. L. T. Guild of Mission Acres is permanent chairman.

Record Catch of Fish

Ed Larbig of San Fernando takes the prize for the biggest catch of fish this season from the Hiawee reservoir. He brought in nine bass on one day which totaled 31 pounds, the largest weighing six pounds. If Los Angeles would only let its aqueduct water run into the city without a sieve, think of the fish householers there would have for breakfast.

Rumors of Bootlegging

The Men's Sunday Morning club at Owensmouth has been hearing things. It was reported to them that booze is being peddled by motorcar in the upper part of the San Fernando valley. Messrs. Grubb, Burgess and Henderson were appointed a committee to investigate. If the report is true, it is supposed they will present evidence at next Sunday's meeting.

Interested in Water Bonds

San Fernando valley residents who are within Los Angeles' city limits are interested in the passage of the \$3,000,000 water bonds which are to be voted on June 7 at the metropolitan municipal election. It is said that incorporated in the proposed items of expenditure are several reservoirs and additional pipe lines that will increase the storage capacity of the aqueduct system and give more efficient distribution of the water throughout the valley.

Potato Growers Will Meet

Potato growers of the Van Nuys section will hold an all-day meeting at the W. V. Stahl ranch on Nordhoff street, Tuesday, June 7. Following the morning session at Zelzah, the growers will adjourn to the Van Nuys high school for lunch and in the afternoon the State Director of Agriculture, George H. Hecke, will speak on the latest methods in handling spuds.

To Draw High School Plans

Architects Allison & Allison of Los Angeles have been commissioned to prepare plans for a new high school at Burbank. The board contemplates the erection of three buildings, bonds in the sum of \$161,000 having been voted.

Man Injured by Lioness

Jack Hayden, who has charge of the lioness and cub on the ranch of Miss McMillan near Lankershim, was seriously injured when the mother attacked him while he was feeding the young one. In the excitement which followed the cub escaped and a posse had to recapture the animal.

Injured in Auto Crash

In an auto crash near Dundee Saturday, Mr. and Mrs. H. W. Ben of El Monte were seriously injured. The car in which they were riding collided with another driven by H. Carlson of 202 North Broadway, Los Angeles. The latter also was slightly hurt. Pulliam & Kiefer's ambulance was called from Glendale to take the injured motorists to a Burbank hospital.

To Provide Freight Service

Proposing to provide freight service for milk and other products from ranches in the vicinity of San Fernando and Saugus, H. E. Wilkinson yesterday applied to the Railroad Commission for permission to establish an auto service between Los Angeles and Saugus.

Subdivision Is Planned

W. H. Armstrong of 104 North Central avenue, Glendale, is the principal in a syndicate which will subdivide twenty acres on the San Fernando boulevard in Burbank. It is their intention to improve the property for half-acre home sites.

Apply for Bank Charter

An application for a charter for the First National Bank of Lankershim has been filed with the comptroller of currency in Washington. The names of the incorporators are to be kept secret until the charter is secured.

Let Contract for Paving Avenue

The San Fernando city trustees have let the contract for the paving of Macley avenue to the limits of Los Angeles city territory at Pacoima Wash. As contracts have been let for bridges over the big and little Tujunga Washes, the Chamber of Commerce will take steps to impress upon the Los Angeles city council the necessity of bridling the Pacoima Wash.

PRESSURE ON POLES, SAYS PADEREWSKI, HELPS GERMANY

MANY COMPELLED TO VOTE AS BERLIN DICTATES, ASSERTS ARTIST AND EX-PREMIER

PASO ROBLES, Cal., May 23.—

"Strong pressure and real terror" exerted by German employers, land owners and officials upon the poor Polish workmen and laborers helped Germany win an apparent victory in the Upper Silesia plebiscite, Ignace Paderewski charged in an exclusive statement to the United Press today.

Paderewski, who deserted his piano to become the first premier and leader of Poland, now is living at his estate here, resting from the strain of months in the thick of European turmoil. He devotes his time to the open air, his music, his friends and his books.

"The religious" part of Upper Silesia is Polish," the former premier declared in discussing the controversy which now is threatening to disrupt the European allies.

Once Awarded to Poland
He declared that Silesia was once awarded to Poland but the supreme council changed the decision and, by its action in ordering a plebiscite, "the seeds of strife were thrown into a well prepared soil."

The result of the plebiscite Paderewski said, "are known but misinterpreted."

"Germany was bound to obtain in the whole of Upper Silesia a majority of votes, owing to certain peculiar conditions," he declared.

"Several districts with an almost entirely German population have been included in the plebiscite area. "Strong pressure and real terror have been exercised by German employers, land owners and officials upon the poor Polish workmen and laborers, many of them having been compelled to vote for Germany against their wishes.

"More than 200,000 Germans supposedly born in Upper Silesia have been allowed to take part in the plebiscite to decide the fate of the country, although they have never lived and never will live there."

The people of Poland have "lost their patience" and have arisen "in spontaneous revolt," he declared, fearing they would not be given justice by the allied diplomats.

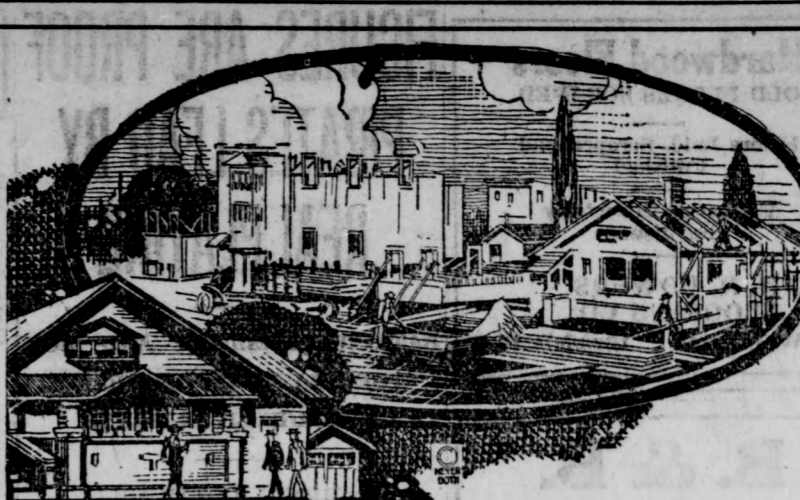

He deplored the criticism of the Polish government which has arisen from the incident.

"The Polish government cannot be held responsible for that outburst of popular impatience and despair," he declared. "It has neither political nor military power over the territory."

Says League Agents Ready For Violators

SAN FRANCISCO, May 23.—"The bootleggers had better stop kidding themselves into feeling any sense of security," Edwin E. Grant, president of the state law enforcement league, declared in a statement today commenting on the reduction of the federal prohibition enforcement staff.

Grant promised that league agents are "prepared to move into any place in California where it is felt that bootleggers are taking advantage of this temporary federal prohibition enforcement."

Palace Grand FeatureGeorge Melford's picturization of
William Vaughn Moody's celebrated
play, "The Faith Healer," a remark-
able Paramount photoplay, scored a
decisive hit at the Palace Grand
Theatre yesterday. The theme is
a vital one and the production as a
whole is massive, impressive and
signally beautiful. There are several
powerful situations in the picture
and, like "The Miracle Man," it
stands out distinctly head and shoul-
ders above the average film produc-
tion. Milton Sills, the leading man
who has the role of the shepherd
who becomes a faith healer and later
falls in love, was excellent. Ann
Porrast, the leading woman, was
quite sympathetic and artistic.The real interest of local people,
however, lies in the fact that this
film is the work of Mr. Melford. His
creative ability in the cinema art
will attract many people to the Pa-
lace Grand where the picture is to
be shown again tonight in conjunc-
tion with a comedy and music equal
to the pictures.**STANDING OF CLUBS**

L. A. Drinking WaterFor those interested in annexing
to Los Angeles, it might be well for
them to know what the Zelzah Tribu-

furnished by the aqueduct:"Just think of it! Zanjerio Tun-

mestic water—water that the city of
